My favourite teacher.

As far as I know, a teacher is not an easy profession. You should be patient, clever, positive and just kind. I'm very proud of teachers at my school.

Honestly, I have two favourite teachers. I love them because they are always ready to help me in difficult cases and give me a hand. They are teachers of Russian and English languages. I have an excellent relationships with them. We sometimes discuss something essential, we even can talk about the latest news and events. They always can cheer me up when I'm sad. Besides, they can perfectly teach the my whole class. And the difficult information will be ~~the~~ easier.

I believe that taking a decision of being a teacher is important and respectfully. I hope that we will communicate to one another in the future. I'm very glad to had a chance to meet amazing people like them.

In conclusion I want to say that a teacher can not only explain and teach, but can also be a good friend. We should appreciate our teachers and remember about them.
